Najot Ta'lim

Full Stack Web Developer
Sep 2021 - Sep 2022

Codepen

Clean Coding & Algorithm Development

LANGUAGES

- UzbekNative
- EnglishIntermediate
- RussianBasic

PROFILE

Frontend Developer with 3+ years of experience building responsive, production-grade web applications (CRM/LMS platforms, admin panels, dashboards) using React, TypeScript, and modern UI libraries. Combines hands-on engineering with a strong teaching background, having mentored 300+ students in programming and computer literacy. Currently building a full CRM/LMS platform for an education center while pursuing freelance frontend projects.

EXPERIENCE

Frontend Developer & IT Instructor

May 2025 - Present

Young Adults Learning Center

- Taught computer literacy and programming fundamentals to 200+ students, from teenagers to adults, across multiple skill levels.
- Designed and built a custom website for the learning center from scratch, strengthening its online presence and student enrollment.
- Currently architecting and developing a full CRM/LMS platform for the center (React, TypeScript, Material UI, Tailwind CSS, RTK Query) covering students, groups, courses, billing, and staff management.
- Applied production-level engineering practices (reusable components, type safety, API integration) directly within the teaching curriculum.

Frontend Developer

Aug 2023 - Jul 2025

Record IT Company

- Developed and deployed CRM platforms, educational library sites, and cross-device mobile apps.
- Led frontend architecture with a focus on clean code, performance, and responsive design.
- Delivered high-impact solutions to clients through close collaboration with cross-functional teams.

Programming & Computer Literacy Instructor

2023 - 2025

Kafolat Ta'lim / Focus Learning Center / WWW IT Academy / Record Mir IT Academy

- Taught 150+ students across four institutions, covering computer literacy, programming fundamentals, and frontend development (HTML, CSS, JavaScript, React).
- Guided students through hands-on projects including Telegram bots, websites, QR code tools, and business card design.
- Delivered interactive workshops on MS Office, internet safety, and everyday digital skills for youth and adult learners.

Software Developer Intern

2022 (3 months)

Support Solution IT Company, Tashkent

- Developed backend components for the INTEX-MARKET website.
- Collaborated with the development team to improve system functionality and fix bugs.
- Strengthened backend programming skills and understanding of web application architecture over a 3-month internship.

Frontend Instructor

Sep 2021 - Sep 2022

Najot Ta'lim IT Center

- Taught HTML, CSS, JavaScript, and React to beginner and intermediate students.
- Helped students build real-world websites and deploy them using GitHub.
- Mentored 50+ students through hands-on projects and weekly code reviews.

PROJECTS

- Built tourism applications and educational websites following DRY and KISS principles.
- Delivered practical, maintainable, and user-friendly solutions tailored to client requirements.
- Collaborated closely with clients to ensure project goals and deadlines were consistently met.

ACTIVITIES & ACHIEVEMENTS

- Participated in a hackathon at Cambridge International University, contributing to the development of the STARHUB project.
- Mentored 300+ individuals in programming and web development, improving their skills and career prospects.
- Delivered multiple IT projects for educational institutions, enhancing their digital infrastructure and learning experience.
